OVERVIEW

Available in a 41cm and 52cm diameter, the Opera flush ceiling light collection is stunningly designed, providing a decorative tuneable lighting option. The colour temperature ranges from 3000-6500K with the convenient remote control feature enabling the consumer to determine their desired illumination output from the comfort of their seating area. Concealing the integral LEDs is the round opal white diffuser. Embedded in the centre of the light is a circular cluster of minute crystal beads, bordered by an edging of larger square crystals. The crystal aspect of this design transforms an otherwise plain light into a stylish, sophisticated range.
